*Climate Change and Social Justice tackles one of the most urgent problems of our time by examining the social justice implications of climate change.*

## CLIMATE CHANGE AND SOCIAL JUSTICE

Edited by Jeremy Moss

The impacts of climate change can already be felt in society and on the Earth itself. As new evidence of the environmental impact of climate change is constantly emerging, we are forced to confront the significance of our political decisions about who will pay the price of responding to a changing climate. In the rush to avoid or reduce the repercussions of climate change, we need to ensure that the burden is evenly distributed or run the risk of creating injustice.

*Climate Change and Social Justice* demonstrates that the problem of how to distribute the costs of climate change is fundamentally a problem of justice. If we ignore the concerns addressed in this book, the additional burdens of climate change will fall on the poor and vulnerable.

Jeremy Moss brings together today's key thinkers in climate research, including Peter Singer, Ross Garnaut and David Karoly, to respond to these important issues.

**MUP RRP \$39.99 (E-BOOK)**

**RRP \$49.99 (PAPERBACK)**

**PUBLICATION DATE**

**15 JUNE 2009**
